Subject: ESEB — research-exchange & outreach funding — checklist + draft text

CHECKLIST — verify before applying:

- No specific open call was identified this run — [BLANK: browse eseb.org/prizes-funding/ and pick the specific scheme (research exchange, outreach funding, or another) before writing a targeted application.]
- Confirm current eligibility, deadlines and required documentation directly on the ESEB site once a scheme is chosen.

No specific scheme or contact identified — this item is an overview page. Once you pick a concrete scheme, run it back through the scouting flow for a targeted draft.

--- (b) Draft application framing text (generic, adapt to chosen scheme) ---

I am a research assistant in the Animal Minds lab at the Universitat Autònoma de Barcelona (UAB, PI: Alex Taylor). My master's thesis, on decision-making in a two-alternative task, combined hierarchical Bayesian models in R (brms, bayestestR, tidybayes, bayesplot, emmeans) with GLM-HMM latent-state analysis to characterise the animal's strategies, validated behaviourally; I also trained several DeepLabCut models and built a post-processing pipeline for coordinate tracking and optical-distortion correction.

[BLANK: state which specific ESEB scheme you're applying to — research exchange or outreach funding — and the project it would support, particularly the evolution/culture angle of your work.]
